DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-8 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 is rendered indefinite by the word “alicyl”, the meaning of this word is unclear.

Claims 1-8 are rendered indefinite by the phrase “wherein alcohol and/or water is allowed to co-exist with said fats and oils.” The mere fact that the reactants are in the same reaction vessel read on co-existing together. It is unclear as what applicants are trying to claim. For the examination of the invention, the office will read the meaning of “co-exist” as meaning in the same reaction vessel.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1621

4. Claims 1, 4, 7-8 rejected under 35 U.S.C. 102(b) as being clearly anticipated by EP-1,061,120.

EP'120 teaches a method of preparing fatty acid alkyl esters wherein fats or oils are reacted with an alcohol at a temperature and pressure that read on the instant invention. See col. 2, section [0011-0013] and col. 3, section [0017].
